Safe Handling and Reprocessing

Bedpan Rack

Single, aluminum.
#972-303512

Autoclavable Fracture Bedpan with Handle

Large, blue, 2.5L.
#193-00083

Fracture Bedpan

- Stainless steel
- Size: 12" x 9½" x 3¾"

#197-90-1100

Fracture Bedpan

- Plastic guard prevents spills
- Built-in handles simplify placement and removal
- Sterilizable
- Made of plastic
- Colour: blue
- Capacity: 0.95L
- Size: 12½" x 9¼" x 3"

#193-00081

Male Urinal, With Cover

- Sterilizable
- Made of plastic
- Colour: blue
- Capacity: 0.94L

#193-00095

MedPro® Emesis Basin

- Standard hospital kidney dish, versatile vessel
 - Easy to handle: flat bottom and top surfaces with small rim
 - Easy to carry
- #635-762-650 **case of 300**

MedPro® Fracture Bedpan

- Designed for patient comfort and for use with a slipper pan support
 - Slide under a less-mobile patient
 - Will not adhere to moist skin
 - Easy to handle: flat bottom and end surfaces
 - Lightweight and easy to carry
- #635-762-653 **case of 100**

MedPro® Male Urinal

- Designed for patient comfort and caregiver ease of use
 - Comfortable, soft surfaces, smooth and warm to the touch
 - Will not adhere to moist skin
 - Easy to handle and stable if used vertically or horizontally for a bedridden patient
 - Lightweight and easy to carry
 - Can be weighed for volume measurement
- #635-762-661 **case of 50**

ZORBI™ Biodegradable Bedpan Liners

- Easy drawstring closure
 - Protects staff and equipment
 - Fits most bedpans and commode seats
 - Contains a water soluble pad of super absorbent powder
 - Blocks odours
 - Helps control infections and saves staff time
 - Size: 15.75" x 23.6" (40cm x 60cm)
- #635-764-104 **box of 20**

MedPro® Bedpan Liner

- Standard hospital bedpan liner
 - Designed for patient comfort and for use with either a bedpan support or commode
 - Will not adhere to moist skin
 - Easy to handle: flat bottom and end surfaces, large tick rim
 - Easy to carry
- #635-762-641 lid for bedpan liner **case of 200**
#635-762-640 bedpan liner **case of 100**

Cleaning and Disinfecting

Accel® PREvention™

Provides the best balance of speed of disinfection, spectrum of disinfection efficacy, cleaning efficacy, health and safety, and environmental preferability.

EcoLogo certified! 3 Minute General Virucide, Bactericidal, Fungicidal, Tuberculocidal, Broad Spectrum Sanitizer.

#907-101103731
946mL bottle, ready-to-use

#907-100906721
wipes, 6" x 7" **tub of 160**

#907-101103732
3.78L bottle, ready-to-use

Accel® INTERvention™

- The FASTEST disinfectant formula registered with Health Canada
- Bactericidal, General Virucidal, and Tuberculocidal efficacy in 1 minute!
- Intended for use as an OUTBREAK INTERVENTION
- 1 min contact time, ideal for addressing bacterial (MRSA, VRE, etc.) or viral outbreaks (Norovirus, Influenza, etc.)

#907-101103733
liquid, 946mL bottle

#907-100906585
wipes, 6" x 7" **pack of 160**

Accel® Rescue™

- Health Canada's first registered sporicidal surface disinfectant
- Sporicidal in 10 minutes!
- Intended for use as a task oriented disinfectant for C. diff isolation rooms or during a C. diff outbreak

#907-101103737
gel, 946mL bottle

#907-100906725
wipes, 8" x 9" **pack of 160**

CaviWipes™ 2.0

- Proven effective against SARS-CoV-2 on hard non-porous surfaces
- Enhanced Efficacy Claims - Effective against over 40 pathogens, including Norovirus and Candida auris for added confidence in preventing healthcare associated infections.
- Excellent Material Compatibility - Compatible with most non-porous, hard surfaces commonly used in clinical settings
- Easy to use label - Makes it quick and easy to find critical information on efficacy, compatibility, and more
- 2-minute universal contact time for bacteria, viruses, and pathogenic fungi (Candida auris)

#517-11-1410-X 6" x 6.75" wipes **160 wipes**

CaviWipes™ Bleach

- Kill all product labeled organisms in 3 minutes, including C. diff, TB, drug resistant bacteria, viruses and fungi
- No PPE required
- 1:10 bleach dilution-compatible with most medical device equipment
- One-step cleaner and disinfectant
- Low odour

#517-11-1200 6" x 10"
pack of 90

CLEANPatch®-V Vinyl Surface Repair Patch

- For use on vinyl
- FDA, Health Canada and CE registered Class I medical device.
- Made of latex-free, biocompatible materials
- Peel and stick application
- Clinically tested and validated by independent infection prevention professionals

#904-21001 1¾" x 4" strip
#904-22001 5¾" x 8" rectangle
#904-23001 variety pack of 7 strips and 3 rectangles
#904-24001 starter pack of 2 strips and 1 rectangle

box of 10
box of 5

PURELL® ES8 Touch-Free Dispensers

- "Energy-on-the-refill" technology—every refill has a built-in energy source, designed to last as long as the refill

#391-7720-01 ES8 hand sanitizer dispenser
#391-7730-01 ES8 soap dispenser

PURELL® Messenger™ ES8 Silver Panel Floor Stand with Dispenser

- Chosen by consumers as a more sleek and modern design when compared to leading touch-free floor stands on the market
- Lightweight and easily moved when cleaning the facility
- Uses PURELL® ES8 1200mL Hand Sanitizer refills
- SANITARY SEALED™ PET refill bottle with the tear-off collar for easy recyclability

#391-7308-DS-SLV white with silver panel

#391-7318-DS-SLV graphite with silver panel

Instruments: Sterilization and Sterile Disposable Options

WIPAK STERIKING®

- 1 Visual check of the seal integrity**
When sealed, the film turns to darker green, so you can check that the seal is undamaged and detect any defects.
- 2 Superior peel of seal**
Pouches feature a specially designed peel-off seal to facilitate opening. Note the correct peel-away direction.
- 3 Strong performance**
The seal, comprising several narrow parallel seams (Multiline), is extremely strong and durable yet peels off cleanly.
- 4 Sealed edges**
Heat-sealed upper corners reduce the risk of dust contamination when opened.
- 5 Easier opening**
Thumb notches at each end make it easier to fill and open the pack.
- 6 Print design safety**
Indicators and text imprints are outside the actual packing area to avoid the risk of ink contamination.
- 7 Manufacture traceability**
Each Steriking® package carries a lot code that states its manufacture year and month (YYMM).
- 8 Process indicators printed on the packs**
EN 867-2 compliant, providing clearly contrasting color changes.
- 9 Exclusive materials**
Made of a tough and flexible multilayer plastic film and high grammage medical grade paper.
- 10 Compliant with EN 868-5**
Transport cartons labelled with a CE-mark. All Steriking see-through packages are manufactured in highly controlled Clean Room conditions to minimize the bioburden of materials.

KiteLock™ 4% Catheter Lock Solution

KiteLock™ is transforming central venous access care by providing a powerful solution to maintain patency and by reducing the risk of bacterial colonization and biofilm formation within central venous access devices (CVADs).

- Infection Prevention—Decreased incidence in central line-associated bloodstream infections (CLABSI)
- Occlusion Management—Decreased treatment interruptions caused by loss of patency, device replacement, device removal, emergency room visits and unscheduled hospital visits.
- Biofilm Eradication—Inhibits and eradicates biofilm formed by Gram-positive and Gram-negative bacteria, and yeast, preventing recurrent infections.
- Approved for use in children

#065-SC001

box of 60

ICU Medical Clave™ IV Connector

- Clinically-differentiated needle-free IV connector technology to help minimize the risk of bloodstream infections
- Designed to enhance patient safety, each of ICU Medical's needle-free connectors utilizes the same Clave infection control technology. Clave's straight fluid path and minimal residual volume help maximize the effectiveness of every flush
- Clave technology helps enhance patient and clinician safety by using a single connector technology throughout the hospital so you can minimize clinical training and in-servicing while optimizing your supply chain.

**Clave™
Technology
Brochure**

MicroClave™ Clear Neutral Displacement Connector

- Clear housing to visualize connector flushing
- Use on all vascular catheters
- Also available with blue tint for enhanced line identification

Clave™ Neutron™ Anti-Reflux Neutral Displacement Needle-free Connectors

- Helps reduce multiple causes of catheter reflux
- Helps reduce catheter occlusions by as much as 50%

NanoClave™ Manifolds and Stopcocks

- Minimize flush volumes
- Multiple applications, including multiport manifolds and stopcocks

Bedal® Catheter Securement Devices

- Bedal PIVC — Suitable for stabilizing & fixating a large range of catheters with a luer lock connection, such as: Peripheral IV lines, arterial lines & mini-midlines.
- Bedal PICC | CVC — Suitable for all types and brands of venous catheters & arterial lines with suture wings.
- Bedal Flex — Suitable for stabilizing & fixating a large range of catheters, such as: Plexus & epidural catheters, spinal neuro modulation electrodes (pain management), harpoons (breast cancer), CVC & midlines.
- Reducing infection risk:
 - Absence of catheter-pistoning (micro motions)
 - Absence of any glue to fixate catheter onto device, which reduces dirt build-up
 - Tape material is non-absorbent and resistant to excess fluids
